

ASSESSMENT

In keeping with our mission to provide world-class educational opportunities for students, The University of Toledo is committed to maintaining high academic standards and quality services for our students. Faculty and staff members engage in the assessment of student learning, an intentionally-designed process of analysis and reflection, to gain a deeper understanding of how and to what extent our students are developing their knowledge, skills, beliefs, and attitudes as a result of their engagement in our academic and co-curricular programs.

Assessment of student learning occurs at the institutional, college, department, program, and course levels. It is frequently based on multiple measures that vary according to each discipline.

The institution uses the insights gleaned from the assessment process to improve our academic programs and co-curricular offerings, in turn, leading to greater student success.

For more information about assessment practices at UToledo, please visit our website (<https://www.utoledo.edu/aapr/assessment/>) and review the assessment of student learning policy.
