

M.D./M.B.A. DUAL DEGREE

The M.D./M.B.A. program provides an opportunity to earn a dual degree through an integrated curriculum. Successful completion of the dual degree program leads to the awarding of two degrees. The Doctor of Medicine is awarded by the College of Medicine and Life Sciences and the M.B.A. is awarded by the John B. and Lillian E. Neff College of Business and Innovation. Students enrolled in the dual degree program will not receive the M.D. or M.B.A. degree until all work required for both degrees have been completed. The M.B.A. degree requires a minimum of 33 credit hours at the 6000-level. Up to an additional 18 credit hours may be required if a student does not have an academic background in business. The Neff College of Business and Innovation will allow up to 9 credit hours of approved M.D. coursework to be credited toward the M.B.A. degree.

Students applying for the M.D./M.B.A. program must have earned a bachelor's degree. A student must apply and be admitted to the College of Medicine and Life Sciences and the John B. and Lillian E. Neff College of Business and Innovation separately to be admitted to the M.D./M.B.A. dual degree program. The MCAT will be accepted by the College of Business and Innovation in lieu of GMAT scores.

Admission to one program does not guarantee admission to the other program. Refer to the College of Medicine (<https://catalog.utoledo.edu/graduate/medicine-life-sciences/>) and M.B.A. sections of this catalog for specific admission standards for each program. Applications for admission to the M.D. program are accepted for fall entry only.

It is recommended that M.D./M.B.A. students take 2 of the 3 Medical School courses below to serve as M.B.A. electives. PCOM 785 is already part of the MD curriculum will serve to fulfill two of the three elective requirements when taken over multiple semesters for the required number of credit hours when a satisfactory grade is earned.

Code	Title	Hours
PCOM 785	Principles of Clinical Med	7
SOMN 607	Administration in Medicine	0
or SOMN 723	Health Policy/Bus. of Medicine	

Another option is for M.D. /M.B.A. students to complete 1 of the 3 Medical School courses listed above, along with 1 elective from the list below. The courses below are semester long courses (subject to availability) and cannot be taken during a medical student's required clerkship or clinical elective time. The course would have to be taken during the dedicated year of M.B.A. study (typically the 3rd year of the M.D./M.B.A. program).

This option does allow M.D./M.B.A. students the opportunity to fulfill the 4 week basic science elective required for medical school. Students should consult with their M.D. and M.B.A. Academic Advisors to determine the best approach for completing the dual degree based on their academic background and individual plan of study.

Code	Title	Hours
EFSB 6590	New Venture Creation	3
HURM 6700	Human Resource Management	3
HURM 6710	Employment And Labor Law	3
