Select six hours of course work in Anthropology of of which three must be at the 3000 to 4000 levels in anthropology with the approval of the departmental advisor (excluding ANTH 2000 and ANTH 4000)		6
Total Hours		21

- PLO 1: Anthropological Knowledge: Students will be able to summarize and compare key terms, ideas, and concepts in Anthropology; students will demonstrate an ability to summarize the various subfields of Anthropology and discuss how they each contribute to our understanding of what it means to be human.
- PLO 2: Theoretical Knowledge: Students will be able to theorize the development of human culture, behavior, and biology and how they are integrated based on the major theoretical perspectives in Anthropology; students will be able to describe the historical development of the discipline and compare/contrast it with current anthropological approaches.
- PLO 3: Methodological Knowledge: Students will be able to describe methodological techniques in the four areas of anthropology, and be able to indicate which methods are appropriate for different research questions; students also will practice these methods in field and lab settings.
- PLO 4: Critical Thinking: Students will employ critical and analytical skills to critique, debate, and share opinions about scholarly works. They will apply problem solving skills and propose ways to address contemporary issues based on anthropological knowledge, theory, and methods.
- PLO 5: Personal and Social Responsibility: Students will be able to convey an understanding of personal and social responsibility.
- PLO 6: Communication: Students will demonstrate information literacy and communication skills.
