BUSINESS INFORMATION SECURITY MINOR (CYBERSECURITY)

Business Information Security (Cybersecurity) requires 9 credit hours.

Cyber Security is a rapidly growing field which is very important to business and governmental organizations. Information security jobs, in both the private and public sectors, are growing at a very fast pace, based on bureau of labor statistics data and informal feedback from the departmental ISAC advisory group. Information Systems professionals are increasingly being required to have exposure in cyber security.

BUAD 2020 is a required pre-requisite course taken as part the upper division business core courses.
