

# TRANSPORT TECH (TPDT)

---

## **TPDT 1010 Principles of Transportation**

[3 credit hours]

This course introduces the transportation services available in the marketplace, public policy decisions and concerns, pricing of transportation services, and transportation's relationship to other functions in the business world.

**Term Offered:** Spring, Summer

## **TPDT 2010 Regulation of Transportation in a Changing Environment**

[3 credit hours]

This course focuses on the regulatory issues facing the modern transportation/logistics manager where environmental, hazardous material safety, and NAFTA regulations are more important than the traditional economic regulations.

## **TPDT 2070 Technology Uses in Logistics**

[3 credit hours]

This course will introduce the student to technologies used by transportation companies and the business world. Students will gain practical experience by completing assignments using technology-based tools.

## **TPDT 2130 Warehousing and Terminal Management**

[3 credit hours]

This course studies the management of the storage of goods from the time the journey begins as raw materials until the finished product is delivered to the consumer.

## **TPDT 2210 Mgmt of Commercial Transport**

[3 credit hours]

This course is taught from the perspective of users of transportation/logistical services. It ties the concepts introduced in earlier courses together with emphasis on current management philosophies in transportation.

**Prerequisites:** TPDT 1010 with a minimum grade of D-
