## Academic Advising

The Office of Student Services in the Judith Herb College of Education coordinates academic advising. The office's mission is to provide quality, timely and comprehensive student services that will enhance student success in achieving academic goals. Although the ultimate responsibility for making personal and educational decisions rests with the student, his/her potential for academic success can improve considerably through relationships with the college's advisors, who can provide assistance in identifying educational options and enhancing student potential.

Each student in the Judith Herb College of Education is assigned an academic advisor to support them in degree requirements, career opportunities, and interpretations of college and University policies and procedures. Advising is through appointment only. Please call 419.530.2495 for an appointment.

Kristina Amos-Perry, secretary  
Gillham Hall Room 3100
